

REMARKS

The title of the invention was revised in the March 16, 2005 Amendment in order to be more clearly directed to the claimed invention. However, the title of the invention was not revised in the substitute specification submitted with the March 16, 2005 Amendment.

Accordingly, the Applicants respectfully request the Examiner to amend the substitute specification to reflect the new title of the invention.

The Applicants submit that the present application is clearly in condition for allowance for the reasons presented in the March 16, 2005 Amendment. An early notice thereof is respectfully solicited.

If, after reviewing this Supplemental Amendment, the Examiner feels there are any issues remaining which must be resolved before the application can be passed to issue, the Examiner is respectfully requested to contact the undersigned by telephone in order to resolve such issues.

Respectfully submitted,

Manabu NAKAMURA et al.
